

ATT. OFFICE PETITION.

RECEIVED
CENTRAL FAX CENTER

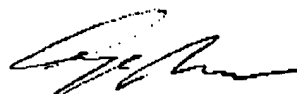

APR 13 2005

Application no. 09/942855
To Kenya a. McLaughlin
Office of Petition

UNDER 37 CFR 1.137 A

On nov. 8, 2004 the applicant had to go out of town to make the prototype and let a friend wait for the letter from US patent. When the applicant got there the applicant tried to unload a band saw from the car and cause a sprain to the back. The next morning the applicant could not even put on his shoes and later went to see the doctor. The doctor told the applicant not to lift any thing and I should call my family doctor. I did call the family doctor next morning and talked to his assistance and they said there is nothing you can do just take the medicine. Also the applicant went to check up last year the doctor bill came to \$7000 still nothing they can do about applicant back problem . The only thing they can do is surgeries and it is very expensive. When applicant's friend received the letter he could not reach the applicant. It took a while to talk to applicant. The applicant was too ill to go out of state and moving all heavy machinery, to get near the original drawing in storage . The applicant is 52 years old, been having serious back pain and is unemployed at this time. this invention is made special for the applicant.

To whom it may concern:
Re: Annop magness

The above patient is presently under our medical care. He had history of back pain, but hasn't been seen in our office during the relevant period-beginning march 24,2004. The patient did call our office for an appointment but he was to ill and to far to come into our office.

Your consideration for his request will be greatly appreciated.
Sincerely,

P. Basil Vasantachart, MD
Medical Director
